

# LEADING THE CHARGE

**As an abundant source of energy, natural gas is an American foundation fuel, helping to increase our energy security. We believe that developing clean natural gas energy sources is critical to reducing greenhouse gas emissions and providing an affordable and sustainable energy blend. Revolutionize the way you power your vehicle.**

W.W. Williams, in partnership with Southwest Gas and Blue Star Power Systems, has created a solution by bringing clean-burning natural gas to on-site generation. Fleet customers can install a charging infrastructure for a fraction of the cost of the standard setup and avoid demand charges and off-peak schedules. Charge as many vehicles as you want, whenever you want.

## **BENEFITS**

- Geared towards fleet electric vehicle charging
- No electrical demand charges and more price stability
- Significantly lower capital investment and operating costs
- No expensive electric grid upgrades required
- When using Renewable Natural Gas, this can be a Carbon Neutral solution to EV Charging

Founded in 1931, Southwest Gas Corporation provides natural gas service to Arizona, Nevada, and portions of California. Our communities, and the more than 2 million customers we serve, are the reasons why we've been heating things up for decades.

Blue Star Power Systems, founded in 2004, is a power generation systems integration specialist, manufactures complete diesel and gaseous driven generator sets ranging from 20 to 2000 kWe.

Founded in 1912 as a small family-owned business, W.W. Williams has evolved into one of the nation's most diversified solutions providers. We provide our customers with mechanical service and repair, power generation equipment and service, transport refrigeration, and warehousing and logistics.

Whether it's evolving our offer to include the most advanced equipment, improving the myriad of ways we support our customers, or developing entirely new lines of business—we innovate to meet the demands of the way the world runs, on the highway, and off.

**W.W. Williams, Southwest Gas, and Blue Star know commercial vehicles and power products, alternative fuels and power generation systems. Together, we provide unparalleled expertise to provide superior solutions.**
